smiths detection

iCMORE APIDS

Online Awareness Training Course

(ICMORE-TRN-AWR)

Smiths Detection provides an online awareness training program for our iCMORE APIDS object recognition software.

This 30-minute course introduces learners to the iCMORE APIDS software, explaining its purpose, functionality within the screening system, important human factors to consider during operation, and its integration with EDS and TIP alarms.

COURSE SUMMARY

Duration:	•	30 Minutes
Pre-requisites:	•	None
Languages	•	English

TRAINING OVERVIEW

The course will enable learners to:

- Explain how iCMORE APIDS integrates with the screening process
- List the key benefits of iCMORE APIDS
- Identify the threat types detected by iCMORE APIDS
- Recognise when iCMORE APIDS is running with EDS
- Describe the process when TIP is running with iCMORE APIDS
- Identify a threat detection generated by iCMORE APIDS
- Demonstrate good practice when using iCMORE APIDS

TRAINING CONTENT

Module 1	•	Introduction to iCMORE APIDS
Module 2	•	Key benefits of AI-supported object recognition
Module 3	•	Working Principles
Module 4	•	Capabilities & limitations
Module 5	•	iCMORE APIDS in the screening process
Module 6	•	Integration with automated explosives detection
Module 7	•	Integration with HiTIP+
Module 8	•	Behavioural considerations concerning the use of iCMORE
